FRABA B.V.  
Jan Campertstraat 11  
6416 SG Heerlen (NL)

20 August 2018

## **RoHS II Declaration (2011/65/EU)**

Dear Sir or Madam:

We hereby confirm that to the best of our knowledge, the products delivered to you do not contain any substances in concentrations or applications that are forbidden in accordance with the applicable requirements of Directive 2011/65/EU including the Delegated Directive (EU) 2015/863.

## **EG-VO 1907/2006 — REACH**

FRABA does not deliver any chemical products, chemical substances as such, or preparations as REACH defines them. FRABA only delivers finished products that have been designated in the REACH Regulation as "articles". Furthermore, no chemical substances are released by these products under normal and reasonably foreseeable conditions of use corresponding to the definition in REACH.

Based on the reasons mentioned above, we have come to the conclusion that FRABA currently is not subject to the obligations of a manufacturer or importer of chemical substances in accordance with the REACH Regulation.

The list of SVHC is published and was updated last on June 27, 2018. It contains a total of 191 substances. According to our current state of knowledge, our products – including components and packing materials – do not contain substances that are part of the list of SVHC in amounts greater than 0.1 weight-%. Neither do we use substances listed in Annex XVII in restricted applications. An exception is the use of lead, CAS 7439-92-1. The substance has been regulated by the RoHS Directive since 2006, and has become now part of the SVHC list.

Lead is only used in applications that are declared as exceptions in the EU RoHS Directive, and do not impact the safe use of the articles:

- Lead as alloying element in turned or milled metal parts and connectors

Independent of the current information, FRABA is in constant contact with its suppliers in order to review changes with regard to the REACH guidelines.

If you should have any further questions, please feel free to contact us at any time.

Best Regards,

Christian Leeser  
FRABA B.V.
